LETTER SUPPORTING PROSTITUTE'S STRUGGLE
AGAINST GOVERNMENT INTERVENTION

12-31-74

All Rights Reserved by Author © July 1974

7-30-74

To the Association of Seattle Prostitutes:

I write to you in the name of the Society of Free Space Colonizers to congratulate you on your apparent decision to no longer permit the hypocritical and logically contradictory dictums of altruist-collectivist society to hold sway over your lives. The SFSC ascribes to the absolute right of the individual to live his or her own life free from force and fraud. This means that no person can tell another what to do with his or her own body e.g. "my ass is mine". The goals of the SFSC include the establishment of a libertarian government in which the functions of the government are limited by unamendable constitution to defense, police and the courts. The function of said government by definition cannot include the legislation of health, wealth and morality.

The SFSC gives full support to your struggle against government intervention in your lives, in turn we would like your support in the future. We would welcome a representative from ASP at our next public meeting (date to be announced). In the meantime, we would welcome more information about your organization.
