8314 Mary Ave. N.W. Seattle, Wa. 98117, 206-782-4651

REQUEST FOR SUPPORT ISSUED BY THE U.S. PAC NATIONAL DIRECTORIAL CABINET ON SEPTEMBER 6, 1977. ADDRESSED TO ALL POTENTIAL MEMBERS, SUPPORTERS, AND LOCAL ACTIVISTS.

## "THE CREATOR CLASS IS THE PROLETARIAT OF PROGRESS"

To all who oppose loss of their liberty, the expropriation of their property, and the regression of society towards a new Dark Age:

The betrayal of western values as developed in the European Renaissance and in the creation of the Industrial Capitalist Revolution and the internal adulteration of our once libertarian Constitutional Republic into a stagnant, social-democratic looter state, can no longer be ignored, or accepted in any form. War has been declared on the peaceful forces of creativity, productivity, reason and individual rights. The intent of the world collective-statist movement and its domestic collaborators is the systematic isolation, demoralization, annihilation and historical eradication of the bourgeoisie and its allies. The enemies of the Creator Class know that this war is a total war with one side winning completely. It is a war fought on all levels in all places. It is inescapable. Our enemies know this full well as they have been waging war against the Creator Class for at least a century. Now they are deploying their forces for the final execution of the Creator Class. We find ourselves in the midst of a world-historical struggle. Either we organize in defense or we face annihilation.

Atrocities against us mount daily. In Cambodia, for instance, the blood-thirsty Khmer Rouge communist rulers have massacred over 800,000 middle-class "traitors". Peaceful white and black Rhodesians are being murdered and terrorized by Marxist invaders with active moral and political support by the Carter collaborator regime. Nearer to home, the once prosperous island country of Jamaica, a major source of non-communist world bauxite, is being looted and terrorized by rampaging Socialist government gangs. The once peaceful island of Bermuda is wracked by communist-inspired racial violence. Meanwhile at home, the Carter gang of Rockefeller-controlled, Trilateral Fabian Socialists go about sabotaging the U.S. economy by impeding the development of desperately needed nuclear power plants, and by locating our natural-gas pipeline route in Trudeau-slovakian Canada. Not a week passes that the Trilateral marionette Carter does not foist some new corporatist welfare-state time-bomb to foul our already inflation-wracked economy. In a country which already pays two-fifths of its income to government, and is suffering a capital investment shortfall of one and one-half trillion dollars for the coming decade, Carter has inaugurated an increase of over 227 billion dollars in Social Security taxes for middle-income wage earners. The Carter Administration's massive minimum wage boosts (an obvious post-election pay-off to the labor union cartels) by most estimates will result in a loss of over 100,000 jobs to lower income persons. On top of this, Carter has concocted an "Energy Plan" not only full of disincentives to the development of new energy sources, but one which also heaps punishing new burdens on the hapless middle-class taxpayer.

The undeniable intent of these actions, by governments at home and abroad, is the systematic domination of the world population and the destruction of any actual or

potential opposition. While the few remaining semi-capitalist, semi-proprietarian, and semi-free countries are being corroded and digested by the social-democratic corporate-statists, the Communists are conducting final-stage genocidal extermination and slave labor, liquidation of remaining Creator Class elements throughout the world. Their ultimate objective, under the leadership of the Soviet Union, is the military-political conquest of Western Europe and North America.

An insidious worldwide campaign is being waged to villify U.S. capitalism. Its most recent target, however, has been white middle-class males. "Affirmative Action" is racial and sexual discrimination against white males. It is a vicious strategy to politicize and extend federal control over education and employment markets which until recently were still largely based on individual merit. Not only does Affirmative Action reduce the social and economic mobility of those bereft of political clout but it also works to produce a permanent dependency status for blacks who are now collectively stigmatized by the use of government coercion. Everything conceivable is being done (often with the unwitting collaboration of feminist Social running dogs) to degradate those posing the greatest challenge to the established order. This motive should be obvious -- to divide, isolate, demoralize and conquer. Observe how the White Middle Class Male is being turned into a confused, weak, self-mocking, altruist-collectivist, sacrificial lamb.

Nearly every state college campus newspaper, for example, is controlled by rabid lefties who direct venomous attacks against career ambition, affluence, athletic competitiveness, personal enjoyment, commercial growth, and even sexual desire for the opposite sex. Their motive, and unfortunately, their effect, is to disarm their opposition with shame and guilt. By fanatical dedication and work they create an impact disproportionate to their numbers which has produced a sense of futility in their potential opponents. Having been maligned into submission on campus, the future "leaders" of semi-capitalist America are easily cowed by collective-statists in future confrontations. It is not surprising that most business "leaders" are weak, equivocating compromisers. This increasingly applies to the military, as well, which now tends more to resemble an agency of the Welfare State than a disciplined fighting force.

Obviously, the plan of our enemies is to render our opposition totally impotent. They know and fear our potential retaliatory power better than the weak, fuzzy-minded intellectuals of the Libertarian Movement and the defeatist, equivocating, self-contradicting Conservatives.

But YOU don't have to fall for it! We can fight back and defeat those who have declared war against us. We must do so NOW with ruthless determination! You can help by: (1) integrating yourself with the Warrior Psychology and PAC Ideology -- get rid of your residual "benevolence" (learn to hate your enemies and their supporters) -- and get rid of your pacifism (want to fight, learn to fight); and (2) setting aside time, and money to advance the PAC wherever you are (the war is now! It won't wait until you graduate, or until you solve your particular problems). We need activists, i.e. people who are willing to learn and discuss PAC principles and programs with potential members and supporters and to help organize political campaigns for PAC-supported candidates. You can be of help even if you are "soft-core" -- until you can be replaced by someone more militant and efficient. If you can't or won't be active then at least send us monetary support.

Things you can do to help:

- . subscribe to VERSUS STATE and learn about the PAC
- . collect information on local organizations, personalities and issues of possible interest to the PAC

- . advertise VERSUS STATE and the PAC to friends and acquaintances
- . organize a local PAC cell
- . arrange speaking engagements for PAC representatives
- . distribute and post PAC literature
- . organize a PAC Infoprop Area in your home or business (place where PAC literature can be read)
- . organize a Martial Arts Defense Group
- . write letters to the local media expressing the PAC line
- . sponsor potluck dinners and social events to present PAC ideas and literature
- . join your state Libertarian Party (and/or) Young Americans for Freedom, the Republican Party, etc. -- volunteer articles and letters to organizational newsletters on the PAC line. Form a bloc of members sympathetic to the PAC to increase militancy and effectiveness
- . study and specialize in one particular problem area with a view to becoming an expert to aid the PAC
- . learn to think of every issue and problem in ideological terms. Transmit this attitude to those around you
- . communicate your ideas, questions and projects to the PAC
- . submit articles and essays to the PAC for publication
- . emphasize the necessity of contributing time, money and effort to the PAC now.

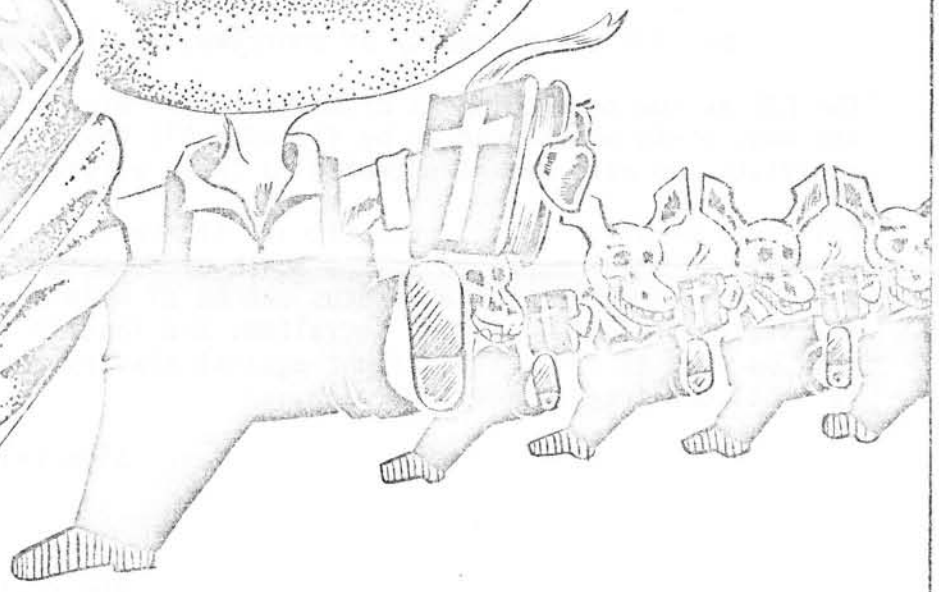

The PAC is now developing an organizational network throughout North America and there are many posts which need to be filled. All these provide great scope for anti-statist activists who have been frustrated in their efforts by dull and incompetent organizations.

Political organizers and revolutionary fighters can come from all backgrounds. We accept the help of those employed by the State or dependent on the State. In fact, virtually anyone in the government apparatus can be of help to us. We must use the State against the State, Socialism against Socialism, and Fascism against Fascism. We ask you to join us now, to support and fight against slavery and support the program to develop a rational and free society.

Sincerely,

The Political Action Caucus
